IMPACT AND BENEFITS

East Axis Intercity Train (TIC) – São Paulo–São José dos Campos

- ❑ Unprecedented integration between the Paraíba Valley and São Paulo's capital;
- ❑ Significant reduction in travel time between strategic regions;
- ❑ Economic growth and regional development stimulus;
- ❑ Job creation and promotion of the rail industry supply chain;
- ❑ Sustainable transport, with lower pollutant emissions;
- ❑ The project extends the SP on Rails Program, promoting modern and inclusive mobility.
